INTRODUCTORY

We have the following strictly first class Varieties of Strawberry, Blackberry, Raspberry and Dewberry plants. We take great care in grading to you our finest and well rooted plants; half rooted are thrown away. Great care is taken in getting all orders true to name. We carry the varieties that are well known and give perfect satisfaction in all parts of the United States. We are aware of the fact that some varieties will prove a good satisfaction in the north; the same varieties are worthless in the south.

All Strawberry planters who have had experience with these three varieties that I carry will praise them to the top-most round.

We Exercise Care

That all our goods shall be true to name, and hold ourselves ready upon proper proof to refund money or replace any varieties that prove untrue. It is mutually agreed that we shall not be liable for a greater sum than the amount paid out for stock.

Packing

Is done in the best possible manner in crates and baskets, using plenty of moss, making no charges for the work or packing.

Very Important

When plants are received, if your ground is not ready or if the weather is dry and windy, do not plant out, but take them from the package, loose the bunches and hell them in moist; firm the ground around the roots and if dry water the roots only as water in the buds will damage them; and shade them from the sun and they will begin to grow. When your ground is ready and the ground is favorable plant out in rows three feet apart, twelve inches apart in the row; treated in this way scarcely a plant will fail to grow.

Varieties and Description

EXCELSIOR—Has no equal as an early berry, it always gets the very best price on the market on the account of its early arrival, this variety is now regarded as one of the best extra early berries; berry dark red of good size, a good shipper and is popular in all parts of the Union as a shipper to a distance market. Price 20c per 12, 50c per 100, \$2.75 per 1000, \$2.00 per 1,000 in 10,000 lots.

KLONDIKE—Is a mid-season ripener following Excelsior and has become quite popular on account of its large size and firmness. It is especially valuable for long distance shipment, the plant growth is fine; it is a productive berry; large; model red; fair quality; price 20c per 12; 50c per 100; \$2.75 per 1000; \$2.00 per 1,000 in 10,000 lots.

AROMA—One of the best late berries on the market, admired by all who see it and is largely planted in all parts of the Union; fruit very large, roundish, conical, glossy, red of an excellent quality and is very productive plant, is a strong stocky grower, fast growing in favor as a late berry, admired especially for long shipments and table use. Price 25c per 12; 75c per 100; \$3.00 per 1000; \$2.50 per 1,000 in 10,000 lots.

RASPBERRIES

RED—\$1.00 per 12; \$2.00 per 35; \$6.00 per 100.

BLACK—75c per 12; \$1.50 per 25; \$5.00 per 100.

BLACKBERRIES

Grown From Root Cuttings

American Black \$1.00 per 12, \$1.75 per 25, \$5.00 per 100

DEWBERRIES

AUSTIN \$1.00 per 12, \$2.00 per 25, \$7.00 per 100

Description

ELBERTA—Large Yellow with red cheeks, juicy and high flavored, flesh yellow supposed to be a seedling of Chinese Cling, ripens middle to last of July, an excellent shipping variety. No other peach has made such name for shipping and none has claimed more extensively for the supply of northern and western market. Orchards containing from 25,000 to 80,000 trees of this variety alone are planted; this is sufficient evidence of its value.

Peach, June Buds

| | Per 1000 |
|-----------------------------|----------|
| 3 to 4 feet, 7-16 inch..... | \$35.00 |
| 2 to 3 feet..... | 25.00 |
| 1 to 2 feet..... | 15.00 |
| 6 to 12 inches..... | 8.00 |

Strawberry Plans Our Specialty

Our plants are free from dangerous insects and contagious plant diseases as per the state inspectors certificate. If you buy plants of us you will get first class plants that are free from infection. Undoubtedly you can buy cheaper plants elsewhere but you may not get the all round satisfaction as you may receive from us, we have no cold storage for our plants which changes the frost proof nature; then when planted out in the field they cannot stand the climate again neither the sun. An indoor housing will tender the plant. We dig our plants fresh from the beds, in this way you can only get of us good reliable plants. Place your order with us today, you will be pleased. All orders must be accompanied with required remittance.

RESPECTFULLY YOURS,

Rosebank Nursery Company
